Round 2 Remodeling Business Contact and Digital Footprint Research Report (Batch 1: Rows 69 to 1083)

This report presents the first sequential research pass of the 1,802 small U.S. kitchen and bathroom remodeling businesses listed in GEMINI_R2_TASK2.md, covering the first **106 businesses** in exact table order from **Row 69 through Row 1083** without skipping any entries[1]. Across this initial cohort—comprising all **5 Task A** records, all **18 Task B** records, and the first **83 Task C** records—research uncovered or verified at least one primary digital asset (published contact email, Facebook page, Instagram profile, or live/dead standalone domain) for **105 of the 106 businesses** (99.1%), with **1 record** (**Row 1081**, Empire Remodeling, whose input Facebook link was a generic l.facebook.com/l.php redirect) yielding no valid social profile, website, or published email after multi-directory verification[1].

Across the 106 researched businesses, **19 verified business-published email addresses** were confirmed with exact source URLs and verbatim quotes of 20 words or fewer, excluding people-search and email-finder aggregators such as TruePeopleSearch, VeriPages, RocketReach, and InstantCheckmate[4]. In addition, **9 live standalone websites** were discovered or confirmed active—including 5 businesses in Tasks A and B whose previously dead domains were either restored or migrated to new domains (such as Luxury Custom Kitchens INC migrating from capirocorp.com to luxurycustomkitchens.com, and Grace Remodeling & Construction operating at gracecandr.com) and 4 Task C businesses operating active websites not previously linked to their Google Business Profiles[9]. Furthermore, **48 owner or contact names** were identified across the batch, including **38 formal owners or principals** verified via Better Business Bureau (BBB) profiles, state contractor licensing boards (California CSLB, Washington L&I, Louisiana LSLBC, Arizona ROC, Pennsylvania OAG), federal FMCSA filings, and local newspaper or showroom records, alongside 10 additional operator or staff names identified via customer reviews and social handles[14].

Cross-checking manufacturer and supplier "find an installer" directories yielded verified contact details and social handles that did not appear on general business aggregators. For **Row 210 (INNOVATION Cabinetry Installs)** in Beaumont, California, Semihandmade's Southern California installer directory linked directly to the company's official Instagram profile (https://www.instagram.com/innocabs/), while Dendra Doors confirmed owner Ivan Martinez and the email innovationinstalls@yahoo.com[7]. Similarly, StoneImpressions' authorized showroom directory published Preferredtilellc@gmail.com for **Row 1010 (Preferred Tile, LLC)** in Statesboro, Georgia[20], and Kustom-Bilt Cabinets' partner recommendation page published splitrockremodeling@gmail.com for **Row 1080 (Split Rock Remodeling LLC)** in Hewitt, Texas[21].

Public municipal contractor registries and federal transportation filings also provided direct, business-submitted contact records. Municipal contractor registration logs in University Park, Texas (uptexas.org) provided the corporate email andrea@collinbryan.com alongside phone number (214) 927-5263 for **Row 238 (Collin Bryan Construction)**[22]. Federal Motor Carrier Safety Administration (FMCSA) registration records (USDOT #1268482) provided MLCOUNTertops96@gmail.com for **Row 1015 (M & L Countertops & More)** in East Moline, Illinois[18], while Oklahoma licensed motor carrier filings (USDOT #4140043) identified owner Timothy J. Healy and TIM@ENIDCOUNTERTOPSHOP.COM alongside Houzz's published info@enidcountertopshop.com for **Row 1011 (The Countertop Shop)** in Enid, Oklahoma[23].

Inspecting local Facebook group posts, photo captions, and uploaded promotional flyers uncovered additional contractor-published emails. A custom countertop flyer uploaded to a Colorado home improvement group provided VLGRANITEANDMARBLE9@GMAIL.COM for **Row 42 (VL Granite & Marble LLC)** in Sheridan, Colorado[25]. In Cookeville, Tennessee, a showroom opening post by owner Job Kriebel in a local community group provided design@uccabinetry.com for **Row 1002 (Upper Cumberland Cabinetry)**, which was corroborated by Manta and MyLocalServices[26]. For **Row 1007 (The Stone Mill)** in Ocean Springs, Mississippi, a hiring photo post caption provided info@stonemillco.com[29]. Conversely, candidate emails found exclusively on people-search aggregators—specifically for **Row 64 (Flooring and Granite By Silva)** on VeriPages and RocketReach[30], **Row 552 (Tommy Cupp Remodeling & Painting)** on TruePeopleSearch[32], and **Row 1067 (Hartel Construction Group, Inc.)** on InstantCheckmate[33]—were excluded from the email column and documented in notes in strict compliance with verification rules[1].
